👤 Professional Summary

Information Technology undergraduate with strong foundations in Java and full-stack development. Experienced in building secure applications with authentication, logging, and database integration. Seeking internship opportunities to apply problem-solving and software engineering skills.

🎓 Education

B.Tech in Information Technology
CSBIT, Charotar University of Science & Technology

Expected May 2027
CGPA: 8.89/10.0

12th Science (GSEB)
Shree C.N. Vidhyalaya, Kapadwanj
Percentile Rank: 88.38

May 2021
71.69%

⚙️ Technical Skills

Programming:	Java, C, C++, JavaScript, Python
Frontend:	React.js, HTML5, CSS3, Material-UI
Backend:	Node.js, Express.js, Spring Boot, REST APIs
Databases:	MySQL, MongoDB, Oracle SQL
Tools:	Git, GitHub, Postman, VS Code, IntelliJ IDEA
CS Fundamentals:	DSA, OOPS, DBMS, OS, Computer Networks

🔗 Projects

-  **Garment Shop Management System** *Java, React, MySQL*
- Developed a full-stack garment shop management system to manage inventory, sales, and customer records
 - Implemented secure user authentication and role-based authorization for admin and staff access
 - Built RESTful backend services using Java (Spring Boot) with proper data validation and access control
 - Integrated Log4j logging framework for monitoring application events, errors, and system activities
 - Designed a responsive React.js frontend with protected routes and secure session handling
 - Used MySQL database for reliable storage of products, billing, and transaction data
-  **UrbanMind – Civic Issue Resolution System** *MERN Stack, OpenStreetMap API*
- Built civic platform for reporting issues (potholes, garbage, drainage) with automatic location detection using OpenStreetMap API
 - Implemented smart city-based routing - auto-assigns issues to respective city admins using lat/long coordinates
 - Created role-based dashboard for admins to assign contractors, track resolution time, and collect feedback
 - Integrated contractor availability system with estimated completion time (ETC) and status tracking for each assigned issue
 - Developed public landing page with real-time analytics (closed/pending/aging issues) for platform transparency

🏆 Certifications

Introduction to MongoDB	MongoDB Inc.
MongoDB Node.js Developer Path	MongoDB University
Data Structures & Algorithms using Java	NPTEL (IIT Kharagpur)
Database Management System	NPTEL (IIT Kharagpur)
Ethical Hacking	NPTEL (IIT Kharagpur)
Google Cloud Career Launchpad Cybersecurity track	Google cloud
